SNAKES OF THE SOUTHEAST

APP

Based on the book
Available for
Android and iPhone

Fifty-three kinds of snakes are native to the Southeast, almost half of all species native to United States. Created by two renowned herpetologists, *Snakes of the Southeast* is the most comprehensive digital guide to the snakes of the region. With easy-to-use photographs, maps and detailed accounts, this app is a great reference for beginners and experienced herpetologists alike.
